

World Café (Small Group Discussions)

Community

December 13, 2018

Type	World Café (45min)
Target Audience	Everyone

The Opencast **World Café** session is meant to encourage small group discussions about specific topics within the Opencast community.

The idea is to have areas for specific topics in a room let by individuals to which people can flock to and discuss a specific topics, exchange knowledge or plan further development.

Topics can both be pre-arranged (we will ask a number of people to represent a specific topic in this session) or can be added ad-hoc based on previous conference or community discussions.

If you have any suggestions, please let us know at rrolf@uos.de or lkiesow@uos.de.
